ABSTRACT

This document contains instructions and formatting guidelines for authors submitting their papers to SYSTOR 2018 and a simple usage example for an ACM compliant latex file.

1 SUBMISSION INSTRUCTIONS

Submit your file electronically by **February 28, 2018 (papers)** following the instructions at <http://www.systor.org/2018/cfp.html>.

1.1 Page Limits

- **Full papers** may include at most 10 pages of content using 10pt font, including everything except references.
- **Short papers** may include at most 5 pages of content using 10pt font, including everything except references.

1.2 Formatting

- Please use the ACM latex template for your submission. The template complies with the SYSTOR typesetting guidelines. This latex file is a simple usage example.
- Categories and subject descriptors are required for the camera-ready version only. You can choose not to include them in your submission.
- The review process is **not** double-blind. Make sure to include the names of all authors along with their affiliation and email ID. Please refer to the sample author block in this document.
- Ensure that the figures and tables are legible. Please also ensure that you refer to your figures in the main text. Many readers print the papers in gray-scale.

Permission to make digital or hard copies of all or part of this work for personal or classroom use is granted without fee provided that copies are not made or distributed for profit or commercial advantage and that copies bear this notice and the full citation on the first page. Copyrights for components of this work owned by others than ACM must be honored. Abstracting with credit is permitted. To copy otherwise, or republish, to post on servers or to redistribute to lists, requires prior specific permission and/or a fee. Request permissions from permissions@acm.org.

https://doi.org/10.475/123_4

Therefore, if you use colors for your figures, ensure that the different colors are distinguishable in gray-scale.

- Please note that the latest ACM format uses a separate .sty file for the copyright notice, which is used in this example. It is highly recommended you use it in your submission.

1.3 Citations

Use a *number* citation format as following [1–3].

2 CAMERA-READY SUBMISSION INSTRUCTIONS

- Do **not** include page numbers in the final manuscript.
- Classification and Keywords are only required for the camera-ready version (instructions in tex file).
- Make sure all fonts are embedded in the resulting PDF file.
- Authors will be individually contacted by ACM with instructions on submitting the rights management form. The system will also provide rights management text and a bibliographic strip to appear underneath the copyright notice. Authors are responsible for updating their manuscripts with this information.
- The finalized PDF of your paper should be submitted following the instructions at <http://www.systor.org/2018/cfp.html>.
- The **deadline** for submitting the final paper and ACM electronic copyright forms is 11:59pm Pacific Daylight Time (PDT) May 6, 2018.

3 ACKNOWLEDGMENTS

Acknowledgments are for the camera-ready version only. Please do not include them in your submission.
