

Systor2021

June 14-16 Virtual

The 14th ACM International
System and Storage Conference

CAMERA-READY SUBMISSION INSTRUCTIONS

These instructions apply to both papers and poster abstracts.

When authors submit their eRights forms to ACM, they receive confirmation messages that include the appropriate copyright text & DOI (document identifier) for their papers. Once complete, the camera-ready paper should be submitted through HotCRP.

Please follow these guidelines:

1. Make sure fonts are type 1 (scalable) and embedded within the document. More details can be found at <http://www.acm.org/publications/gi-proceedings> part 7e.
2. Authors must use the ACM classification system. For details see <https://dl.acm.org/ccs/ccs.cfm> and instructions in the paper template.
3. Papers must not include page numbers in the final manuscript
4. Be sure that there are no bad page or column breaks, meaning no widows (last line of a paragraph at the top of a column). Section and subsection headings should remain with at least 2 lines of body text when near the end of a page or column.
5. Include the DOI in your paper that you received from ACM.
6. The camera-ready version must include the updated copyright text you received from ACM.
7. Please modify your .tex file with the ISBN data: `\isbn{978-1-4503-8398-1}`

The deadlines for submitting the final PDF and ACM electronic copyright forms is:

- Posters: May 3, 11:59pm AoE
- Papers: May 21, 11:59pm AoE

Contact “Joel Nider” <joel@ece.ubc.ca> with any questions or concerns regarding the camera-ready submission.

Thank you very much,

Bruno & Michal
