

SYSTOR 2024 Slides and Video Specifications

Dear Presenter,

For the SYSTOR 2024 virtual event, you must pre-record a video of your presentation that integrates your slides with footage of you speaking. This video will be played live for you by the SYSTOR staff during the event at a specific time slot in the program. However, you should be available for 3-5 minutes in live for Q & A at the end of the video slot.

Once your video is recorded and ready for the conference, please upload the mp4 file on the convenient for you cloud solution ([available for download](#)) and send the link to both addresses by September 5th: shefner@mta.ac.il olekol@gmail.com

Slides Specifications

- Aspect ratio: 16:9
- Leave space in the top-right corner for the speaker inset showing you presenting your paper
- Introduction slide that clearly lists the title of your paper and your name
- Closing slide to thank your audience and/or collaborators and to display your contact information should you wish to receive follow-up questions from attendees
- File format: PDF
- File name:

Systor2024_slides_[yourlastname].pdf (e.g., **Systor2024_slides_smith.pdf**)

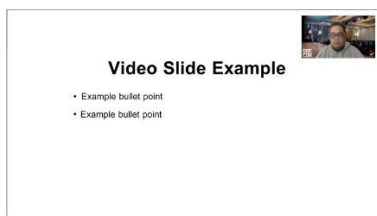

Video Specifications

- Length: **15-17 minutes**
- File format: H.264 MP4
- Resolution: 1920x1080 (1080p)
- Aspect ratio: 16:9
- Max file size: 500MB
- File name:

Systor2024_video_[yourlastname].mp4 (e.g., Systor2024_video_smith.mp4)
